

# THE VALBONA VALLEY

---

The Valbona Valley lies in the center of the Albanian Alps in the Tropoja District. It has the status of a National Park and covers an area of 8,000 hectares. The nature of this park is rich in additions suitable for tourism, fishing and mountaineering. In the inner part of the Park there are many caves that distinguish the Dragobia Cave. Beneath the Valbona threshold waterfall, the waters of these springs disappear under gravel to the entrance to Rragami. There are dark forest soils between 500-1200 meters high, then the velvety lands that lie on the left slope of this valley from the Overland and up to Shoshan at 400-900 meters.
